

The hearth of the Rally Bohemia is already beating

Press Release no. 23
Mladá Boleslav, 12th July 2012

In Mladá Boleslav the hearth of the Rally Bohemia is already beating. The aerobatic pilot Šonka flies in Sosnová.

The headquarters and secretary of the 39th Rally Bohemia is running now at full throttle. Last couple of crews have collected Road Books for getting to know the track of the competition and the ONI-System monitoring units establishing their exact position and most importantly their current speed. With connecting to a computer system it can analyse eventual violations of crews against speed limits law in certain sections of the track of the rally.

Step by step the lay-outs of safety zones are being finished as well as spectators' places and also forbidden entry zones. The matter of the health and safety is for the Rally Bohemia very important. Since the beginning of this year we have unfortunately come across several serious accidents of competitive cars during rally events in the whole Europe. For spectators it means that they and their movements will be closely watched in the spectators' places and entering and remaining in the forbidden entry zones will not be tolerated. In the worst case scenario the organizers won't hesitate too long before cancelling the special stage for the reasons of undisciplined behaviour. That's why we ask you all to obey the organizer's instructions and to respect marked spectators' places even you sometimes might be a little further away from the special stage than you would wish. When laying-out all safety zones all eventualities have been taken under consideration such as unexpected technical fault, wet road surface after heavy rain, etc. The Organizers of the 39th Rally Bohemia together with all competitive crews will certainly appreciate your behaviour, because everyone wants to enjoy this rally all the way to its final at the finish ramp on Sunday in Mladá Boleslav.

Also do not hesitate visiting the spectators' special stage at Autodrome in Sosnová. The amended track is ready there containing two parallel jumps. The first one is situated right after the start of the special stage and the second one is on the other side of the racing circle, where gravel used to be. Sosnová is definitely worth visiting also for the reason of the performance over the arena of the Champion Aerobatic Pilot and the participant of the RedBull Air Race, Martin Šonka, just before the start of the special stage. He will appear in clouds in his aerobatic aeroplane above Sosnová on Saturday 14th July at 17:00, which means just a short while before the start of the spectators' special stage.

None of great rallies can be held without partners, which share a significant part of financing the competition. The general partner of the Rally Bohemia is the Škoda Auto automobile factory, which provides a representative background and also seeds into the competition the factory's crews driving in Škoda Fabia S2000 cars. Another one of important partners of the 39th Rally Bohemia is the lubrication oils and greases manufacturer MOGUL as well as the agency CzechTourism, which promotes the Czech Republic in abroad in the tourism

sector. We would like to take the opportunity to thank these and also all other partners of the 39th Rally Bohemia for all the significant support of the motorsport event in the Czech Republic.

Let's remind that the 39th Rally Bohemia starts off already on Friday 13th July 2012 by the ceremonial start in Mladá Boleslav, where all the participating crews will introduce themselves to spectators there during a rich accompanying programme. The concert of Olga Lounová and music band SEVEN won't be missed there. The real fight on special stages starts off on Saturday 14th and Sunday 15th July. The first competitive car will reach the finish line on Sunday at 16:40 on Old Town's Square in Mladá Boleslav.

More information including the maps, timetables and lists of entrants can be found at www.rallybohemia.cz.
